Dear Esther and Joshua,

many thanks for your postcard from Norway and for your letter. It was wonderful to see you here, even for a short time. We were only sorry for the slightly comatous state we were in during the Congress and certainly hope that you will come again and at more leisure.

It was great fun to read about your travel experiences on various Viking routes. Many thanks for the final version of the postscript on antibody formation. I shall study it with great care and shall come again with my comments ~~xx~~ if I have any. We shall contact several firms for office furniture and I am sure that they will be happy to send you catalogues. According to the shipping department of NK, everything went on schedule. You may not have received word because ordinary mail may take anything between one and two months. ~~1~~ However, if you don't receive it within the next few days, please let me know and I shall have a duplicate sent to you by air mail.

I now definitely expect to see you again before the end of this year. I cannot say more about this now but will let you know

~~know~~ about it later.

With our warmest greetings to both of you,

yours as ever,

for te
